

# JEFFERSON COUNTY

## Planning and Zoning Department

(Includes Solid Waste/Clean Sweep)

### Annual Report for 2013

---

#### 2013 DEPARTMENT STAFF

**Rob Klotz.....Director of Planning and Zoning**  
*(Employed by Zoning since 1988)*

**Vacant.....Zoning and Planning Technician**  
*(As of 2/14/09)*

**Jeff Simes.....Onsite Waste Systems Technician**  
*(Employed by Zoning since 1994)*

**Michelle Staff.....Zoning/Onsite Waste Systems Technician**  
*(Employed by Zoning since 2004)*

**Vacant.....Solid Waste/Zoning Technician**  
*(As of 7/3/07)*

**Deb Magritz.....Administrative Specialist I**  
*(Employed by Zoning since 1991)*

**Laurie Miller.....Zoning Program Assistant**  
*(Employed by Zoning since 1993)*

**Sharon Ehrhardt.....Solid Waste Clean Sweep Specialist**  
*(Employed by Zoning since 2001)*

The Planning and Zoning Department is responsible for the implementation and enforcement of the Jefferson County Agricultural Preservation and Land Use Plan and Zoning Ordinance, which includes state regulations in Wisconsin Administrative Rules NR135, ATCP51 and NR115, and Chapters 59.69 and 66.1001 of Wisconsin Statutes; Private Sewage System Ordinance including DSPS383 and Chapters 59.7 and 145 of Wisconsin Statutes; the Floodplain Ordinance including state regulations in NR116 and federal regulations in CFR 44 pt.60; Shoreland/Wetland Ordinance including NR115; Land Division/Subdivision Ordinance including Chapters 59 and 236 of Wisconsin Statutes; Clean Sweeps with their education components for the Solid Waste Program; and Wisconsin Fund Grant Program and Private On-Site Waste Treatment System (POWTS) maintenance involving DSPS383 and Chapter 145 of State Statutes. These programs are administered with a staff of six and the involvement of the Jefferson County Board of Supervisors, Planning and Zoning Committee, Corporation Counsel and federal and state agencies including the Federal Emergency Management Agency (FEMA), U.S. Army Corps of Engineers, U.S. Fish and Wildlife Service, State of Wisconsin Department of Natural Resources (DNR), Department of Safety and Professional Services (DSPS), Department of Agriculture, Trade and Consumer Protection (DATCP) and Department of Administration (DOA). This Department functions under the direction of the Planning and Zoning Director who is appointed by the County Administrator. Policy guidance is provided by the County Board's Planning and Zoning Committee.

Two thousand thirteen was another challenging year for the Planning and Zoning Department. The severe economic downturn in construction activity which began in 2007 has continued, but it appears that permit revenues may have finally stabilized at historically low levels. The lack of new home construction and related permitting continues to have a negative effect on Department revenues and budget. The Department issued a total of 438 Zoning and Land Use Permits for 2013, a decrease of 15% compared with 2012 permit numbers. This included 67 new, single-family residences, compared with 57 new, single-family residences permitted in 2012, 52 in 2011, 66 in 2010, 85 in 2009 and 102 in 2008 and 150 in 2007. Fee increases which were approved by County Board over the last several years have not yet helped the bottom line due to the lack of permits. This Department's revenues have stabilized but will not return to previous levels until the economy and housing market rebound. Revenue numbers for the first half of 2014 project a slight decrease over 2013 figures, but we are hopeful that this trend will stabilize or reverse, allowing the Department to meet its budget projections.

Two thousand thirteen also saw the end of the workload from the "Great Flood" of 2008. FEMA-mandated substantial damage inspections came to a conclusion for most residences located in the floodplain of Jefferson County. The Planning and Zoning Department continued to issue permits and conducted reassessments throughout the year as county residents repaired, reconstructed, filed for buyout or removed damaged or substantially damaged residences. Two thousand thirteen saw the issuance of 6 floodplain-related permits, as well as 13 shoreland/wetland permits. In other flood-related matters, the new FIRM (Flood Insurance Rate Maps), which became effective in Jefferson County on June 2, 2009, are being restudied and redone at the direction of FEMA and DNR. The new study and maps are available for Jefferson County property

owners to review, and an open house was held in Lake Mills on March 26, 2013. The map and study adoption process has continued through 2014 and will come to the County Board in 2014 or early 2015 for adoption. The Department also completed its Community Assistance Visit (CAV) audit with DNR, to review our floodplain program. The last such audit was in 1994. Continued enforcement of floodplain regulations keeps Jefferson County and its residents eligible for flood insurance, federal backed mortgages, and disaster assistance from the federal government. Department staff also completed the state-mandated rewrite of our shoreland/wetland ordinances as determined by NR115. However, due to recent action by the state legislature, revisions are needed and required adoption of the new shoreland/wetland ordinances relating to NR115 has been extended until February of 2016. This revision will require the regulation of impervious surfaces in the shorelands of Jefferson County.

The Jefferson County Planning and Zoning Department and Planning and Zoning Committee continues its implementation of the revised Jefferson County Agricultural Preservation and Land Use Plan approved by DATCP and adopted by County Board in February 2012, using it in daily work as well as in their decision-making processes and recommendations to County Board. From 2000 through 2013 under the 1999 and 2012 Agricultural Preservation and Land Use Plans, 35,132 acres have been protected from further A-3 Rural Residential lot development, with a total of 948 lots created, covering 1,891 acres, at an average lot size of 1.994 acres each. For 2013, 36 A-3 lots were effectuated, covering 90.84 acres, averaging 2.52 acres each. By adopting and implementing the Agricultural Preservation and Land Use Plan, Jefferson County remains compliant with the Farmland Preservation Program, Wis. Stats. Chapter 91, allowing its landowners to participate in the program and remain eligible for a tax credit. According to the Department of Revenue, Farmland credits for 2013 (2012 tax year claims) showed 632 claimants received \$727,372 which included 99,539 acres in farmland preservation. For 2012 (2011 tax year claims) Department of Revenue showed 742 claimants received \$778,418 which included 109,243 acres in farmland preservation. For 2011 (2010 tax year claims) Department of Revenue showed 791 claimants received \$779,912 which included 120,061 acres in farmland preservation.

Zoning staff also handled violations covering enforcement of all Ordinances under our jurisdiction. Approximately 62 violation notices were sent out, resulting in several court actions, and the issuance of 20 citations. We are also in our third year of enforcement actions in Rubidell Resort Campground relating to DNR/FEMA floodplain violations, which included an additional 30 citations. The Planning and Zoning Department would like to thank Corporation Counsel Phil Ristow and his office for all their hard work and assistance in those matters!

2013 also saw 4 major Zoning Ordinance text amendments approved by County Board relating to Cell Towers, Non-Conforming structures, Revocation of Conditional Use Permits, and Adaptive reuse of Barns. In the next year or two, amendments to the Zoning Ordinance will include a new Floodplain Ordinance and Maps, Shoreland Ordinance, Wind Generator Ordinance, and Subdivision Ordinance. Most of these text amendments

are as a result of changes to Wisconsin State Statutes and various Acts passed by the legislature and Governor.

Our Department also regulates and inspects the installation of all new and replacement septic systems known as private on-site waste treatment systems (POWTS) in the county. Each installation is required by law to be inspected for proper installation. Two thousand thirteen saw a total of 91 new and replacement POWTS. This compares to 80 in 2012, 93 in 2011, 113 in 2010 and 119 in 2009, 117 in 2008, but was a significant drop from 2007 when we had 168 new and replacement POWTS. Our inspectors are also required to verify soils on POWTS installations, including replacement systems. In 2013, this Department conducted 115 soil test reviews and inspections. We also continue to administer the Wisconsin Fund Program, which makes money available to replace failing private sewage systems for those property owners meeting income criteria. This year, two applicants received a total of \$5,368. Since the program's inception in 1991, Jefferson County taxpayers have received approximately \$582,806 for septic system rehabilitation. We have also begun work on the state-mandated POWTS septic maintenance program, which requires a complete inventory of all existing private on-site waste treatment systems in the County by 2017, and implementation of a POWTS maintenance program by 2019. This law requires property owners to report pumping and maintenance on their POWTS (septic system) to the County, every 3 years. As a result, this Department will end up tracking and regulating over 10,000 systems.

In 2013, Sharon Ehrhardt and the Solid Waste/Air Quality Committee continued its task of providing recycling education and holding clean sweep events for the residents of Jefferson County. Two thousand thirteen host-fee revenues of \$57,024 received from Deer Track Park Landfill as part of the negotiated landfill agreement for Deer Track Park, provided the main funding source for all Solid Waste Programs. This funding source is based on the tonnage of waste taken in at the landfill and fluctuates with economic conditions. State grant money is also utilized but is variable from year to year. In 2013 the Department received \$31,000 in grant funding from DATCP. The City of Watertown again provided \$20,000 for 2013 to cover the cost of the Watertown Clean Sweep event, and multiple towns and municipalities of Jefferson County responded to the need for funding by donating a total of \$5,625 to help with this worthwhile program. Fort Healthcare and UW-Health Partners helped sponsor the drug drop box program, and JWR Inc. of Johnson Creek and John's Disposal of Whitewater were also key figures in designing, manufacturing and sponsoring drug drop boxes. Revenues of \$13,085 were collected from the electronics e-waste recycling as companies will now pay for the electronics we collect.

In 2013, four clean sweep events were held, accounting for 942,592 pounds of household, appliances, agricultural, electronic and pharmaceutical wastes being recycled instead of ending up in our local landfill. Three hundred eight citizens were served by clean sweep events in 2013 at a cost to the County of \$60,020.86. The Solid Waste/Air Quality Committee continues its partnerships with the cities of Watertown, Fort Atkinson, Whitewater and Waterloo, Town of Ixonia, Jefferson County Sheriff's Office, Watertown and Lake Mills Police Departments, as well as multiple private businesses, organizations,

and corporate sponsors, so we could offer permanent drop-off sites for electronic e-waste, appliances, and drugs for the convenience and safety of Jefferson County residents. The future success of all solid waste programs depends upon these types of partnerships.

Education efforts by the Committee continued in 2013 through newspaper articles and information posted on the Department's website, and Sharon participated in many speaking engagements to various service organizations. The recycling video which was completed in 2012, was also provided to schools and posted on our webpage for educating the public regarding our recycling programs. Two thousand thirteen saw the continued popularity and usage of the drug drop-off box located at the Sheriff's Office, and additional drug drop-off boxes located at the Fort Atkinson, Lake Mills, Watertown and Whitewater Police Departments. This allowed citizens to properly dispose of unused, outdated drugs and pharmaceuticals at their convenience rather than holding them until the next clean sweep event. These drug drop boxes have been unbelievably successful and popular with citizens. For 2013, this program has led to 2,428 pounds of drugs being kept out of the landfill, our water supply, and our kids' and grandkids' hands. In 2013, Jefferson County exceeded two million pounds of electronic e-waste collected. This milestone was achieved in a little over 3 years and demonstrates a great willingness and acceptance by the public to utilize our recycling program which now includes permanent electronics and appliance drop off sites. Attached to this report, you will find our updated brochure regarding the solid waste program for Jefferson County.

Two thousand thirteen presented a multitude of challenges, obstacles and opportunities for the Planning and Zoning Department. Most of our time involves the implementation, operation and enforcement of the County Zoning, Sanitation, and Subdivision Ordinances, as well as federal and state-mandated programs which include the Floodplain and Shoreland/Wetland and POWTS programs. Land Use regulations are in a continual state of flux, and seem to change regularly as politics often win out over common sense and court actions continually mold and shape land use regulation. Looking ahead to 2014 our reduced staff will meet with more change that will keep us on our toes and remind us to be flexible yet vigilant in our pursuit of maintaining Jefferson County's vision as documented in its plans and ordinances. I would also like to thank the Zoning Committee and Board Of Adjustment for their support, dedication, and hard work, and the Solid Waste Committee for their hands on involvement in our clean sweep events.

Attached you will find several documents, charts, and graphs depicting a variety of datum relating to items mentioned in this report. Most are self-explanatory, but if you have questions, feel free to contact the Zoning Department for an explanation. Be sure to visit our website for additional information.

## Drug Drop-Off Sites

### Sheriff's Office—Jail Lobby

411 S. Center Avenue, Jefferson, WI 53549

Open every day-24 hours a day

*When dropping off more than 2 or 3 gallon size zip lock bags of drugs call this non-emergency number 920-674-7329 for an appointment.*

Drug Container Sponsored by JWR

### Watertown Police Department

106 Jones Street, Watertown, WI 53094

Open every day-24 hours a day

Drug Container Sponsored by  
UW Health Partners/Watertown  
Regional Medical Center

### Lake Mills Police Department

200A Water Street, Lake Mills, WI 53551

Open Monday-Friday from 7:00 a.m. to 5:00 p.m.

Drug Container Sponsored by Fort HealthCare

### Fort Atkinson Police Department

101 S. Water West, Fort Atkinson, WI 53538

Open every day-24 hours a day

Drug Container Sponsored by Fort HealthCare

### Whitewater Police Department

312 W. Whitewater Street, Whitewater, WI 53190

Open every day-24 hours a day

Drug Container Sponsored by Johns Disposal & JWR Inc.

**Accepted Drugs:** unused prescriptions, over-the-counter drugs, inhalers, vitamins, and veterinary/pet medicines.

### NO Sharps/needles, radioactive materials,

oxygen tanks or medical equipment

*Check with your local health department, pharmacy or clinic/hospital for sharps disposal*

Keep medicines in original containers. Cross out your name and prescription number. Do not remove the name of the drug because we need that information for proper sorting. There is no limit to the amount of drugs that can be brought and no questions will be asked of whoever brings them. All drugs are properly disposed of through the Jefferson County Clean Sweep Program.

## 2014 Clean Sweep Events Household, Farm, and Business Hazardous Waste Collections

### REGISTRATION REQUIRED!

HOUSEHOLDS AND FARMS—\$10 FEE PER VEHICLE  
Businesses - Charged based on weight. Register  
at least three weeks prior to event.

### Saturday, April 12, 2014

Hours 8:00 to 11:00 a.m.

Jefferson County Fair Park

503 N. Jackson Avenue, Jefferson, WI 53549

Call 920-674-7430

### Saturday, May 17, 2014

Hours 8:00 to 10:00 a.m.

City of Watertown Street Department

811 S. First Street, Watertown, WI 53094

Call 920-262-4080 or 920-262-4081

### Saturday, September 20, 2014

Hours 8:00 to 10:00 a.m.

City of Fort Atkinson Public Works Department

700 James Place, Fort Atkinson, WI 53538

Call 920-674-7430

### Friday, October 3, 2014

#### Household Only

Hours 3:00 to 6:00 p.m.

City of Whitewater Public Works Complex

150 E. Starin Road, Whitewater, WI 53190

Call 920-674-7430

## Electronics and Appliance Recycling Sites

### WATERTOWN RECYCLING CENTER

727 Cady Street, Watertown, WI 53094

1999 No Clean Sweep

1992-2001 Alternated years between Household & Ag Clean Sweeps

2002 Combined Household, Ag, Business

2005 Electronics were add to Clean Sweeps

2010 Three permanent electronic sites were setup and we stop taking electronics at Clean Sweeps

2014 We added two more electronic and appliance collection sites - we now have five.

2007 Added Pharmaceutical to Clean Sweep and continues to take drugs at Clean Sweep also setup up five permanent drug drop off sites
